

# Instructions to Download your AI Activation Key

The Certified Ethical Hacker (CEH) labs use an innovative AI tool called ShellGPT. Powered by advanced natural language processing, ShellGPT enables users to interact with command-line interfaces intuitively. Whether probing network vulnerabilities or executing penetration tests, ShellGPT responds to commands in real-time, streamlining tasks and enhancing productivity. Its adaptive capabilities facilitate seamless navigation through complex systems, empowering learners to explore diverse cybersecurity scenarios with ease. AI-powered ethical hacking significantly enhances both efficiency and precision in ethical hacking engagements.

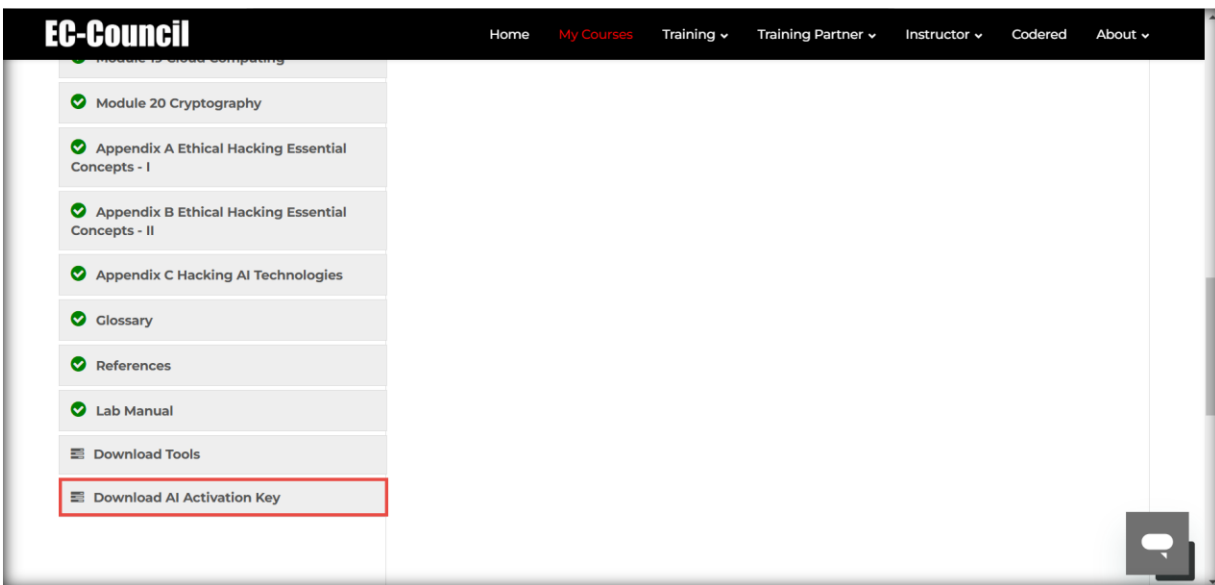

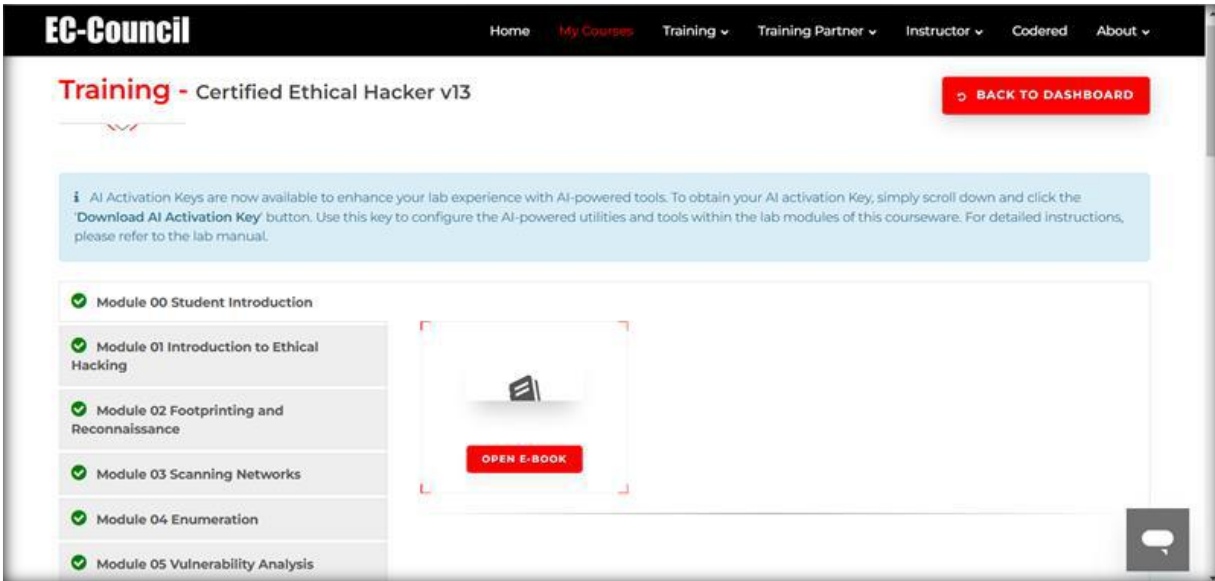

Please download your AI activation key from your respective learning platform.

## ASPEN Portal

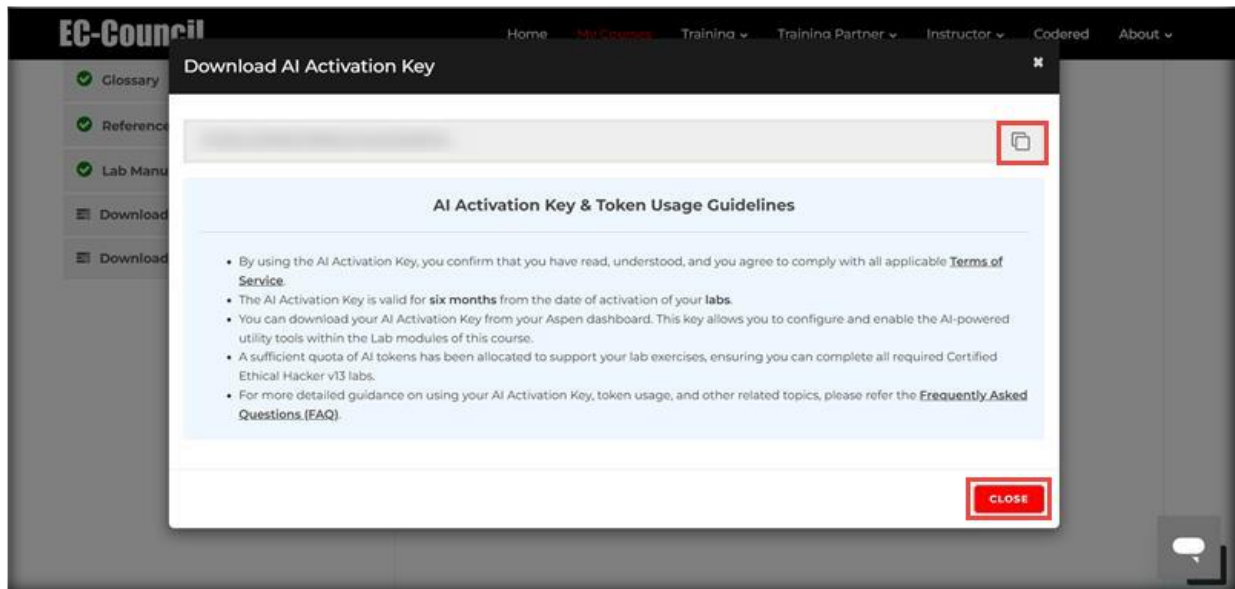

1. Visit the **ASPEN** platform (<https://aspen.eccouncil.org>) and sign up or log in to your existing account.
2. Once logged in, click the **My Courses** tab at the top, and navigate to the **My Courses** section. You will see your courses listed under the **My Courses** section.
